Dear friends and colleagues,

We are delighted to invite you to attend the 2014 EASAPS annual meeting that will be held in Madrid the 28th and 29th November.

An outstanding, international faculty, known for their skills in facial aesthetics, both surgical and non-surgical, and also for their teaching ability will deliver the program.

The world of aesthetic plastic surgery is changing rapidly with new technologies and new surgical approaches appearing almost daily. The 2014 EASAPS Madrid meeting will provide a fantastic opportunity for the faculty and participants to share the passion for and experiences in our field. The presentations will use detailed video to increase the quality of the education. This is a meeting for all who wish to learn more about facial aesthetic plastic surgery and non-surgical treatments and will immediately be useful in your day-to-day practice.

The incredible city of Madrid will be a backdrop for the meeting, and an opportunity to spend some time exploring the monuments, tasting the top class Spanish cuisine and making new friends and developing contacts with colleagues from all over Europe.

We hope to see you in November in Madrid
